## ABOUT ME

I have a passion for UX/UI design and spend part of my free time developing and design apps for Android and iOS using Flutter. I also develop websites using NextJS and TailwindCSS. I am fascinated by IT and the way it shapes our society, and I love designing and creating IT solutions that fits users needs and makes their work and lives at least a little better.

## SOFTWARE

- Adobe InDesign
- Adobe Illustrator
- Adobe Premiere Pro
- Adobe XD
- Figma
- Microsoft Office
- Flutter (+ Dart)
- NextJS + TailwindCSS

## FORMAL EDUCATION

**2020 - 2022**  **M.Sc. in Information Science**
Aalborg  Aalborg Universitet

User research, examining and understanding human practice, development and design of ICT, participatory design, user-centered design, UX design, UI design, managing complex work.

**2017 - 2020**  **B.Sc. in Information Technology**
Aalborg  Aalborg Universitet

Usability (planning and conducting), UI design, UX design, wireframing, prototyping, programming (HTML, CSS, Javascript, PHP, C#), businessprocesses and analysis of these, communication, user studies, project leadership, working as a team.

## WORK EXPERIENCE

**2021**  **Chefmade**
Aalborg  UX Designer (internship)

At this internship I conducted interviews with customers and restaurants, and used the insights from these to create a redesign of Chefmade's website. I also developed an app for Android and iOS, that the restaurants at Chefmade could use to track and manage their dinings at Chefmade.

**2018 - 2019**  **AAU On Demand**
Aalborg  Student Educator

The job at AAU On Demand required going to different high schools to educate students about a topic I chose myself. For my presentation I decided to teach about user-centered design. At this job I improved my communication, planning, and improvisation skills.

**2017**  **Wind & Solar Implement Solutions**
Johannesburg  Trainee / IT Support / Other

For my job at Wind & Solar Implement Solutions I designed various graphical work, including websites and advertising materials, and did various ad hoc tasks. I learned a lot about culture, design, and collaborating with others.

**2014 - 2017**  **Swim Team Neptun**
Randers  Swimming Instructor

Working as a swimming instructor I learned a lot about communicating to people that are different from me. I also learned about having responsibility and handling pressure in stressful situations.

## VOLUNTARY WORK

**AAU Buddy Network**
I have been a buddy for 20+ international students at Aalborg Universitet. I have a letter of recommendation I can show upon request.
